

Tokocrypto Officially Joins the ICEX Group Ecosystem, Bringing the Total Number of Migrated DAFTs to Five

Kai Hamza, CEO of ICEX Group, and Calvin Kizana, CEO of Tokocrypto, commemorate the plaque presentation marking Tokocrypto's official transition into the ICEX Group ecosystem.

Jakarta, Indonesia — 22 June 2026 —ICEX Group announced that Tokocrypto has officially completed its migration process into the ICEX Group ecosystem on June 18, 2026. With Tokocrypto joining, the number of Digital Asset Traders (PAKD) that have completed migration to the ICEX Group has now reached five companies, namely OSL Indonesia, Upbit Indonesia, Nanovest, Mobeex, and Tokocrypto. Several other PAKDs are also scheduled to follow and undergo the transition process into the ICEX Group ecosystem.

This migration forms part of the phased onboarding process for the founding DAFTs into the ICEX Group ecosystem, carried out in a coordinated manner to ensure service continuity, market access, and customer asset protection in accordance with applicable regulations.

As an integrated digital financial asset infrastructure ecosystem operating under the supervision of Indonesia's Financial Services Authority (OJK), ICEX Group remains committed to supporting the development of a secure, transparent, and sustainable digital financial asset market in Indonesia.

Tokocrypto's integration marks an important milestone in strengthening Indonesia's digital financial asset market infrastructure amid continued industry growth. OJK data shows that spot

crypto asset transaction value reached IDR 22.98 trillion in April 2026, representing a 2.86 percent increase from IDR 22.34 trillion in March 2026.

As a result, total year-to-date (YTD) crypto asset transaction value reached IDR 99.01 trillion as of April 2026, approaching the IDR 100 trillion mark within just the first four months of the year. This growth has been accompanied by a continued increase in the number of crypto asset investors in Indonesia.

Kai Hamza, CEO of ICEX Group, stated that Tokocrypto's integration further strengthens the industry's collective commitment to building a highly regulated and high-standard digital financial asset ecosystem.

"We welcome Tokocrypto's integration into the ICEX Group ecosystem. With five DAFTs now onboarded, we see positive momentum for strengthening Indonesia's digital financial asset market infrastructure. Our focus remains on building an ecosystem that prioritizes market integrity, operational efficiency, investor protection, and regulatory compliance."

Meanwhile, **Tokocrypto CEO Calvin Kizana** said that joining ICEX Group represents an important milestone for the company as it expands its contribution to the development of Indonesia's digital asset industry. This step is expected to serve as the beginning of greater opportunities for Tokocrypto in the future.

"We welcome the successful completion of our migration into the ICEX Group ecosystem. This marks an important step in supporting the development of Indonesia's national digital financial asset industry and strengthening a more integrated market ecosystem. We believe that collaboration among industry participants, strong market infrastructure support, and continuous innovation will serve as key foundations for the future growth of Indonesia's digital asset ecosystem."

ICEX Group currently operates through three licensed entities that form an integrated digital financial asset infrastructure ecosystem: Indonesia Crypto Exchange (ICEX) as the digital financial asset exchange, Crypto Asset Clearing International (CACI) as the clearing institution, and International Crypto Custodian (ICC) as the custody provider.

Moving forward, ICEX Group will continue onboarding the remaining founding DAFTs in phases, in accordance with operational readiness and regulatory requirements. As more industry participants join the ecosystem, ICEX Group remains optimistic about its ability to contribute to strengthening the foundations of a more mature, transparent, and globally competitive digital financial asset market in Indonesia.

###

About ICEX

PT Fortuna Integritas Mandiri, operating under the brand name **Indonesia Crypto Exchange (ICEX)**, is an OJK-licensed Digital Financial Asset Exchange that officially commenced operations on January 5, 2026, following the issuance of its exchange license by the Financial Services Authority of Indonesia (OJK) through Decree No. KEP-2/D.07/2026.

About ICEX Group

ICEX Group is a developer of digital financial asset market infrastructure in Indonesia, building the country's first integrated Self-Regulatory Organization (SRO) ecosystem under the supervision of OJK. The Group consists of three licensed entities: **ICEX** (Digital Financial Asset Exchange, KEP-2/D.07/2026), **CACI** (Clearing Institution, KEP-12/D.07/2026), and **ICC** (Institutional Custodian, KEP-11/D.07/2026). ICEX Group is committed to strengthening investor protection and supporting the sustainable growth of Indonesia's regulated digital economy.

About Tokocrypto
